About Vicinia Solutions Limited

Vicinia Solutions Limited is a sustainability and environmental consultancy services provider poised to deliver innovative, high quality professional services. Our landscape approach combines sound scientific principles and strategic thinking to offer bespoke yet innovative solutions.

Our Vision: To be the benchmark of quality within our industry by being the most innovative, sustainable development solutions provider in Africa.

Our Mission: To be the consultant of choice, recognised for the quality of our service.

Our Values: Relationship, Integrity, Innovation, Passion, Excellence,

Our Services

- Environmental Management
- Resource Management
- Sustainability and CSR Reporting
- Capacity Building and Advisory Services

Environmental Management: We minimize risks associated with developments and business operations by deploying relevant environmental management tools in the most effective way. These tools include:

- Environmental Audits
- Environmental and Social Impact Assessments (ESIAs),
- Environmental and Social Management Plans (ESMPs)
- Environmental Studies and Pollution Management
- Post Impact Assessments
- Life Cycle Assessments (LCAs),

Resource Management: Sustainable resource management is a business critical issue and an under recognised opportunity for growth. At Vicinia we recognise that effective waste management is no longer sufficient for business, we therefore assist organizations to turn the circular economy thinking into practical action and successfully implement cradle to cradle (C2C) principles in their business approach. We achieve this by guiding them through the following core areas:

- Resource Management Assessment
- Resource Management plan
- Product Stewardship
- Value and Systems Mapping
- Behaviour and Systems Change Management
- Waste Management and Recycling Solutions
- Hazardous Waste Management
- Energy Audits and Management Systems
- Eco-design Services

Sustainability and CSR Reporting: True sustainability goes beyond easing environmental impact. It makes good business sense. We aim to help clients to develop social leadership and innovation through our sustainability service offerings:

- Reporting strategy and guidance
- Stakeholder and third party views
- Reporting reviews, assessment and benchmarking
- Development consulting

Capacity Building and Advisory Services: We provide bespoke sustainability training designed to provide targeted guidance and support to companies, to enable them attain sustainability even in increasingly turbulent times.

Our People

We aim to provide global services locally; we therefore deliver our service through dedicated and certified staff and sub-consultants that are selected on the basis of their expertise, experience, track record and adherence to relevant professional codes of ethics and conduct.

We have competent Consultants in house and within our network

Our Team

Ibukun FALUYI

Ibukun is a sustainability consultant with over fifteen years of work experience in development work and environmental management consulting. With demonstrated expertise in environmental and resources management, she has over the past five years deployed different environmental management tools to help diverse organizations in different sectors spanning the FMCG, to the Oil and Gas sectors to attain environmental compliance and effectively manage their waste.

Ibukun is a member of International Solid Waste Association (ISWA), a practitioner member of the Institute of Environmental Management and Assessment (PIEMA) and a NEBOSH certified Safety Practitioner. She has a first degree in Microbiology from Obafemi Awolowo University and a second degree in Integrated Environmental Management from the prestigious University of Bath, UK. She is currently a member of the working group implementing EPR in the Electrical and Electronic Group Sector and a member of the UN Sustainable Consumption Pattern Clearing House.

Stephen OLUSANYA

Stephen is a Civil Engineering professional with specialization in Environmental Engineering. He has an in-depth understanding of environmental and social management issues as he has been involved in several environmental and social management plan developmental projects. He is also quite proficient in the use of ArcGIS, SPSS, QGIS, MATLAB amongst other softwares.

Stephen obtained his B.Eng Civil Engineering and then M.Eng Civil Engineering (Water Resources & Environmental Engineering) from the University of Ilorin in 2018.

He is a member of the Nigerian Environmental Society.

Josiah Amana John

Josiah is a Quality Management System - Internal Auditor with deep experience in the Oil & Gas sector. He combines that with an M.Sc in Environmental Management.

Josiah possesses a high standard of good laboratory practice (GLP), relevant experience in quality control, quality assurance, health safety and environmental requirements, and drafting of standard operating procedures for various chemical analyses.

He is an associate member of the Institute of Public Analysts of Nigeria (IPAN)
